THE TRIBUNE.

From our Supplement of Saturday. Reventeen Bays Later from Europe. Arrival of the Britannia.

The Britannia, Capt. John Hewitt, arrived at Boston on Friday morning at a quarter before 8 making the passage in 161 days. She had 58 passengers to Boston; left 6 at Halifax and took

The Britannia experienced a constant succession of Westerly gales, which accounts for her prolonged passage.

By this arrival we have London papers to the 4th and Liverpool to the 5th. We are indebted to Messrs. Adams & Co. for Willmer & Smith's European Times, and for other English papers. The news is not very important.

The Caledonia hence, arrived out on the 30th and was advertised to leave for Boston on the 19th inst. the Acadia on the 4th December, and the new ship Cambria on the 4th of January, 1845.

The Cotton market remained in a quiet state with a fair demand from the trade, and speculaters nibbling occasionally. The iron trace was firm. Money continued abundant. Lord Ellenborough is spoken of as the next

Lord Lieutenant of Ireland. Another report says the office has been tendered to Lord Powis. Her Majesty and Prince Albert were to leave Windsor on the 5th, for a visit to the Marquis of Exeter, at Burleigh House. Galignani's Messenger says that the Royal pair have promised the King of the French to visit Paris in the course of next year.

The Great Britain is at length released from her protracted confinement at Bristol. It is in. tended that she shall make one or two trial trips, after which she will proceed to London, and afterward from Liverpool to America.

Manchester has been made a port, and a Custom House has been established, with the neces-

Macready arrived in England by the Caledonia, and left for Paris to sustain a round of characters in the French metropolis, supported by Miss H. Faucit, and the best available talent, under the patronage of Louis Philippe.

Mr. Wheaton, the American Minister at the Court of Berlin, was received by their Majestics on Saturday evening.

Miss Miller, a young and beautiful lady, has been preaching sermons in some of the Methodist Chepale, in the Midland counties, with much Harriet Martineau states, in a letter to a

friend, that she has been much benefitted by submiting to the mesmeric process so much that, after a long confinement to her room, she can now take a three-nile walk with ease and pleasure. It app are from an efficial return, that at the

end of August last, there had been completed in Germany, 475 French leagues of reilroads, and that the capital employed amounted to about 50 midion pounds stelling.

It is said that the forgers of the Bank of England £100 notes have been very successful in their fraud in France and Belgium. Forty of the forged notes were passed on the money changers of Paris between Monday and Thursday last week.

principal item of metropolitan intelligence, was the grand opening of the New Royal Exchange, which took place on Monday the 4th, and was attended, in great state and splender, by the Queen, accompanied by his Royal Highness Prince Albert, her Cabinet Ministers, many of Prince Albert, her Cabinet Ministers, many of cause of Repeal was making considerable prothe Nobility, Foreign Embassadore, and other gress among their sturdy countrymen, the Presdistinguished individuals. Nothing could exceed the enthusiasm with which her Majesty was man then handed in several contributions from greeted during the whole of her progress. In the North. The Hon. Mr. Hutchinson said that, the evening there was a splendid illumination — from the information he had been able to obtain, At the Exchange a rather unlucky incident befel the Lord Mayor of London. A high pair of O'Connell with regard to the spread of Repeal Spanish boots formed a part of his Lordship's principles in the North of Ireland. equestrian attire. On alighting, his Loreship was anxious to divest himself of such an incumbrance, having to perform the somewhat ardnous change. Several attendants were at hand, and, after a sharp trial, his Lordship succeeded in and repeated attempts to tear or cut it off having Royal procession with one boot on and one off.

WAR UPON THE REPUDIATORS .- Wilmer & Smith's Times says :- " Some time ago we mentioned that steps were being taken by the London clubs to stamp 'repudiation' as a crime against society. We stated that Americans belonging to the insolvent States should be shut out of the social and other advantages which the clubs af ford to strangers visiting London. The war of ford to strangers visiting London. The war of aggression has commenced, but it is much more stringent in its application than we intimated at the time, or had any conception of It will cmbrace all Americans, without reference to what part of the Union they come from. The innocent will suffer disgrace equally with the guilty States. When the Cato-street conspirators, some twenty-five years ago, determined to murder the British Ministry of that day in cold blood, one of the gang p'caded hard for the life of a particular member, on the ground that he was a good important artisle which appeared in a journal lar member, on the ground that he was a good and virtuous man. 'He be d- !' was the exclamation. 'Spare him! he must be killed for keeping bad company !' and the ruffians prepared to sacrifice him accordingly. The retributive policy of the London clubs would appear to be founded on the same principle of justice. A leading metropolitan journal, a few days back, said. We have heard it mentioned, as a positive fact, that an American gentleman of the most unblemished character was refused admission into one of the largest clubs in London on the sole ground that he belonged to a Republic that did not fulfil its engagements. All possible pains were taken to convince the gentleman that there was not the sightest personal objection to his unite. admission, and that his own reputation was such that the club would have had the greatest pleas-house of a person belonging to a sect called the tre in receiving him had he belonged to a more White Quakers. The inmates refused to admit creditable government. In fact, the whole affair, of assistance, and made no exertions to extinand the manner in which it was done, may be guish the flames, declaring from the windows considered as reflecting quite as much honor on that God would protect his own. The police the gentleman himself as it conveyed a deep repreach to America. From the feeling with which we have heard this subject mentioned in the city, it is not too much to expert that the example will be fellowed in other establishments.— No distinction, as we understand, has been made as to the State to which an individual may belong, but the whole United States are looked

upon as equally tarnished." extensive, that the area of one of them will be

OFFICE NO. 160 NASSAU-STREET BY GREELEY & McELRATH.

NEW-YORK, MONDAY MORNING, NOVEMBER 25, 1844. VOL. IV. NO. 198

espeol; and a town is rapidly rising there, which in Paris that the visit will lead to favorable rea few years ago was a bleak and barren shore, that promises, not removely, to outside in gigantic grandeur, the source from which it sprung the customary rejucings: processions, consisting mile-celebrated the day; and the amusement stely, and will be made the occasion for a generof fire works, bonfires, and the thundering of annon, were provided ad infinitum As a proof Naples. of the interest which the event excited on the Lancashire side of the Mersey, it is stated, that during the day considerably more than FIFTY THOUSAND PROPLE Crossed the river.

TAGLIONI .- The magnificent danseuse Tagli ni, says Chas. Willmer's News Letter, has signed an agreement with an adventurous speculator o'clock, having left Liverpool on the 5th instant, gages to accompany him to America, and play shall appoint. Mr. Treak is to pay all traveling and other expenses, and share the godu, with Mdlle Taglioni—guaranteeing to her only a minimum benefit of £5,000.

THE ANTI-CORN LAW LEAGUE, says the Euopean Times, is again in the field. It has been in a state of torpor during the last few months as regards its public meetings, but the leaders of the novement have been busy, it seems, in working he register, and taking the necessary steps for increasing their parliamentary strength, when the opportunity offers. So ample are the finds at the disposal of the League, that to intention exists of appealing this year to the pockets of the members. Some interest has been excited in England at the growlings which boom across the Atlantic in connection with the League's distri. bution of its pamphlets in the United States during the contest for the Presidency. How far Messrs. Cobden, Bright, and Co. are justified in ousying themselves with the domestic politics of another country we will not stop to inquire; but ertain it is (says the Times) that they regard the leading statesmen of the American Union as pur-suing, in their "protective" views, the most deluzive policy. America, they contend, beyond any other country, has most to gain by Free Trade; and "protection," which is only another vo d for taxing the whole country in favor of a peculiar branch of trade or a particular district, cannot work well for the interests of the American people generally. Such are their views in distributing these tracts and pamphlets, for doing which they have been fiercely assailed by a porion of the American press.

FATHER MATHEW INVOLVED IN DIFFICULTIES .-A public subscription has been commenced for the relief of Father Mathew, the apostle of temperance, who, by his liberality in support of the perance, who, by his hockarry is support cause, has involved himself in great and ruinous pecuniary difficulties. Lord Cloncurry has contributed £50. It appears from a paragraph in the Cork Examiner, that the Rev. Mr. Mathew has actually been arrested for debt. His debts are said to amount to £5,000. The money now collecting will speedily exceed this sum, and leave the philanthropic friar something on hand.

AGRICULTURAL LABORERS .- Small allotments of ground for the agricultural laborers are among the most popular remedies now broached for the social ills of that class of society. Some diversity of opinion exists as to the nature of the remedy, and there are those who contend that the evil will be aggravated by the proposed means. The rent for these allotments, so great is the competition, varies, it is said, from £5 to £3 an acre: the peasant can only cultivate them during his his support, he runs the risk, worked as they are by spade labor, of doing injustice to himself or to his employer. ground may keep him from the beer house, but it may also, as he has to centend against the large cap tal and still larger farm of his employer, ab sorb his little carnings, and involve him in still greater difficulties. The condition of the peasant class has lately attracted much attention; but any plan on a large scale for ameliorating the hardships to which they are subjected has not been propounded by any of the wordy philanthropists of the day. The condition of this hardy race is the opprobium of the age.

REPEAL ASSOCIATION .- At the weekly meeting CHRISTENING THE ROYAL EXCHANGE.—The of this Association, on the 21st ult. a letter was om Mr. Henry Grattan, advocating increased exercion in the establishment of Repcal

reading-rooms throughout the country.

Mr. Maurice O'Coanell observed that he had to present the Association with a proof that the Mr. Cavan Duffy, editor of the Nation, has

addressed a letter to Mr. O'Connell, deprecating his adoption of Federalism. Whether better or duty of preceding the Royal party round the Ex. worse, Repeal is a different thing from Federalism; and Mr. Duffy thinks it "essentially a worse thing"—"In the first place, the 'Imperial disloging his foot from one boot; but, unfortu-nately, the second was not so readily removed, to England. It will teach the aristocracy still to failed, his Lordship was compelled to head the turn their eyes to London as the scene of their ambition. It will continue to train them in Eaglish manners, feelings, and prejudices, and to establish permanently a centre of action apart from their native country. By the same process, it will plant deeper the physical evil of absence. ism. It will compel cur Lords and Commons to reside out of the country, and continue the drain upon our resources, on which you found so strong an argument for repeal. In this respect, I think it a worse cure for absenteeism than Dr. Maunit a worse cure for absenteeism than Dr. Maun-sell's tee otom Parliament " Mr. Duffylearnest'y hopes that Mr. O'Connell does not mean to propose the adoption of Federalism by the Repeal Association; and he suggests that to doso would be a breach of faith towards those members who have joined the Association as Repealers. Mr. O'Connell has addressed a letter from

Derrynane Abbey to the Acting Secretary of the once devoted to Orangeism, and still highly Protestant - the Warden of the 19th of October."-One passage from this Orange writer may be

One passage from this Orange writer may be quo'ed as a specimen:

"There are influences of change abroad which cannot be reimprisoned; deep in the heart of the country lie the volcame
elements of carthquake; there are physical masses outnumber
ing three armies of Waterloo, whose misery reproaches humainty and cries to God, who would bless. Heaven for such
food and lodging as Englishmen give their swine; creatures
who have nome to kelp them—who are starving—whose dospaint will yet burst into delirium. Depend upon it, when the
long accumulating misery of a country combines with its ambitton, and its vanity, and its energy, it is a tremeadous combination to cope with. Such a combination revolutionized
France; and all influences seem at work together to effect such
a union bete." Mr. O'Connell expresses a fervent approbation

A fire broke out recently in Dublic, in the forced en entrance, and put out the flames.

FRANCE.

The return of King Louis Phillippe to his own dominions has not yet hasened the discussions of the French journals on the policy of als visit. The Ministerial papers still contend that the visit is an event of great national importance; while the organs of the Opposition endeavor to separate the King from the people by asserting the New Town .- Opposite the port of Liverpool, the cordiality of His Majesty's reception was not Diw docks are about being formed, on a scale so a demonstration of friendship towards France, but a personal compliment to himself. It is equal to the whole dock accommodation of Liv- however considered by the more moderate parties

sults; and that although the next Session of the Chambers will be a stormy one, the Government and will be enabled to carry many measures which they could not o herwise have proposed. The marriage of the Due d'Aumale to the Princess Caroline of Salerno will take place immedial amnesty for political offenders in France and

The National de l'Ouest complains that the English have seized the north point of Prince's Is. land, at the mouth of the Gaboon river, on the Western Coast of Africa, a site which belongs to the Portuguese—under the pretence of establishing a coal depot for Atlantic steamers; and the nal assumes that the object is, to blockade the Gaboon, in case of a collision with the French, who have a factory on the banks of the river.

The Paris papers announce that France is taking steps to abolish negro slavery in its colonies. The Governor of the island of Bourbon, in opening the Colonial Council on the 20th of May last, made a similar statement. Into that island free laborers from China and the East Indies will be imported.

Violent storms ravage the South of France.-In Marseilles the inundations have been se great that the water rose above the carriage-wheels in the streets. A terrific storm visited Toulouse on the 24th October. At Avignon and other towns, the Rhone, the Durance, and the Saone, have overflowed, and committed much injury.

A very destructive storm and whirlwind ravaged Cette,, near Montpelier, on the 22d of last month. An inundation followed; the waters of the canal rising to a great hight. Boats and lighters were sunk, and thirty persons are supposed to have perished in them. Some merchant vessels were also wrecked in the harbor. The appearance of the town is described as horribleas if it had sustained a siege.

SPAIN.

The two Chambers were constituted on the 17th. The bill relative to the Constitution was presented to the Congress on the 18th. The folwing is an outline of the new " Constitution;" The preamble of the present Constitution is to be suppressed, because it asserts the national supre-The members of the Senate are not to be elected, but to be appointed by the Crown for life. Political offences, including those of the press, are not to be submitted to trial by jury.— The National Guard is to be suppressed; and instead a similar force is to be organized in dis-tricts the Government may think to need it. The article requiring the Cortes to assemble every year is suppressed; leaving the Crown to convoke them only when it thinks fit. The Queen is to be allowed to contract a marriage without the consent of the Cortes. [This is supposed to point at a marriage with the Prince of the Asturias, son of Don Carlos.] The clause, forbidding the Queen to leave the kingdom except by leave

of the Cortes, is suppressed.

From various parts of Spain there are accounts of disturbances. The correspondence of Gen. Ametler seized at Perpignan, proves an intended revolt in Catalonia, to overthrow the Queen and rcestablish Espartero's power; and in Catalonia several persons of the Progressista party have been arrested; while a military cordon has been established along the frontier, to prevent ingress of refugees from France. Gen. Aymerich, formerly Governor of Madrid, has mysteriously deperted from Valladolid; and Government had sent two regiments into Old Castle, to repress the rising agitation. Vigo and Tuy, in Galicia, have declared against the new constitution bill.

The Queen Dowager, Queen Christina, was married to S. Munoz, at the Palace at Madrid, on the 13th ult. The Ministers were present, and the ceremony was performed by the Patriarch of the Indies. PORTUGAL.

Lisbon letters, of the 16th instant, narrate the prove dings in the Cortes. A bil introduced into the Chamber of Peers for the abolition of slavery in the Portuguese possessions in Asia, by the Count de Lavradio and the Viscount Sa de Ban-

deira, was opposed by Ministers, and rejected by a majority of 23 votes against 18. CHINA. The accounts from China come up to August 1, but consain little of any great interest. Seve-

ral disturbances had lately been occasioned by attacks on the American factories at Canton, but these were headed by the very lowest of the Chinese. Robbery and piracy were still prevalent to a great extent, but, despite the efforts or the authorities, it seemed next to impossible to prevent their recurrence, and business remained exceedingly dull.

The accounts from this country give the details of a most singuinary conflict between a party of Kabyles and the French, in which the former lost 600 men, and the latter between 50 and 60, with 150 wounded. The French were commanded by General Comman. The scene of the fight was a mountain fastness, where the Arabs fought desperately, and the French, owing to falling short of ammunition, were obliged to into the plain. New disasters commenced in their retreat. Marshal Bugeaud was about proceeding thither with 5,000 men. GREECE.

A correspondent writing from Athens on the 10th ult. gives the following somewhat extraordinary startling announcement: "it is generally reported here that the three protecting Powers, wearied with the affairs of Greece, intend to retire from any further interference in the destiny of this country, to recal their ambassadors, and to abdicate in favor of Austria-some say Austria and Prussia combined-who is to be the fuinformed persons pretend, that although a startling announcement, and perhaps somewhat exaggerated, yet there is some truth at the bottom of this. It is quite clear to all impartial observers, that things cannot long go on as they are at present. The different conflicting interests of the three Powers, and their intrigues in Greece, only tend to embarrass the country, and make it impossible to carry on the Government. The great mistake in the appointment of the Regency was its being composed of three members, which led to discord, intrigues, and internal dis-sensions, which created wounds that the hand of time has not yet healed.

BELGIUM. The King of the Belgians has opened the parliamentary session for 1844 5. The speech announces the conclusion with the German Zollverein of a treaty of navigation and commerce and that by recent convention, the postal communications between Belgium and Great Britain have been regulated on a basis at once more extended and more favorable to commerce.

Markets.

Markets.

The Liverpool Cotton Market—Report for the neek ending October 25.—There is little or no alteration in the value of Cotton: the market has, however, but in dull appearance, and was at one period so flat and dull that, head to report a slight decline in prices. A public sale of Sea Island, brought forward, we should most probably have had to report a slight decline in prices. A public sale of Sea Island, brought forward this day, passed off very heavily, very few being sold, and those at a decline of Id per lib from the private business, and 2d lower than the prices of July and August—330 American and 1403 Surais fave been taken on speculation; 670 American and 430 Surais for export; and the total sales amount to 25,220 bales, of which 70 are West India, at 4d to 564, and 90 Laguarra, at 43,d.

Report for the Wesk enting American continuing nothing decided on the subject of the sales. American favor of the being at least an average one, an our market the week has in consequence had a dull feeling. Prices may be considered rather in favor of buyers, but they are not decidedly lower. The transactions have proved extensive, and the trade have supplied themselves freely, but the abundant supply has had a 6epoesting influence. 150 American and 120 Surat have been taken on speculation, 200 for export, and the entire sales comprise 38,300 bales.

Report of the Cotton Market, Mar.4—The trade have supplied themselves freely but the other colleges of the nonlege ways as had mken of specialistic, 200 for export, and the critic sales comprise 35.00 bales.

Report of the Cotton Merket, Nov. 4.—The trade have supplied themselves tolerably fixely of late, and we have also had some speculative inquiry. On the receipt of the intelligence brought by the Caledonia, proces appeared to have a downward tendency; and from the manner in which Cotton was brought forward, some reduction in prices was exported. Such anticipations have not, however, been realized, and the

Great Fire at Saratoga Springs-Loss from Twenty to Thirty Thousand Dollars. Sanatona Springs, Nov. 22, 1814. To the Editor of The Tribune:

Sin: Our vi lage is once more a sufferer by fire. The alarm was given about 3 o'clock this morning, and the fire was found to proceed from Burchard's drug store, opposite the Railroad House. The houses being mostly wood in that neighborhood, and only one engine fit for service, many fears were entertained that it would sweep the entire street, but by the greatest exertions th fire was stopped in the building adjaining R card's Lafayette House. There we can be housed destroyed, occupied by 1 dry goods store, 1 hard-ware store, 1 fur store, 1 drug store. 1 grocery and rooms occupied by five or six families. About ten or twelve thousand dollars insured, a near as I can ascertain-mostly in the Hartford Insurance Companies

JOHN ANDERSON & CO. TOBACCO AND SNUFF
Manufacturers, Nos.; Wall and 312 and 215 buans street,
would respectfully inform their friends and the public, that the
rery liberal patronage bestowed on them for the last year ingenounced them to greater exections in brancing to perfection
the articles of their menufacture. Every improvement that
experience has suggested has been adopted and our success in
proved by the award of the highest promium given by the
American Insilonic, at heir into Junual Pair in the City, to
his best Tobacco and Sauff. The cause of this mocars in
ino fact of the purity, as well as the manufacture, of our Tolace; for the truth of which see the annexal certificate of
they are a sample of the Annexal certificate of
the great and the ments, viz: coe; for the truth of which see the annexes continued of effort met rainent chemists, viz.; I have analyzed a sample of Mr. John Anderson's 'Fine it Hency Dew Tobacco' and find it to be pure Tobacco thout any mixture of those substances with which much of ordinary Cheming Tobacco's contentionated.

JAMES N. Utilit TON, M. D. Chemist, See, Sec.

New-York, April 8th, 1841.

Our Scafarlatti Turkish and Spanish Smoking Tubacco, wwould recommend as being a very superior article. It i packed in small cases of six and ten dozen each, convenient for
